OUR ONE-HORSE WIRE YESTERDAY GAVE JUDGE DURELLE, 15 TO I, LOST.

WE are literally coining money for our three-horse-per-day clients at New Orleans this winter. Our three-horse wire is getting the money and getting it in chunks. Our policy of spending money in every possible direction with an open hand to secure the very best results for our clients is again vindicated and we are proud of our ability to make such a glorious showing as we are enabled to do this morning. Three thousand clients, each paying us a weekly fee of \$10 for our information, makes our gross income \$30,000 per week. Do you know or did you ever hear of a single individual plunger who had a fund of that magnitude with which to conduct a winning campaign on the turf, or one that was willing to spend that amount?

Allowing for our advertising bills, we have a fund of over \$4,000 per day to draw from to spend with owners and trainers and to employ the most skilled corps of clockers ever corralled in the history of the turf, and we spend very nearly all of it to accomplish our aims.

The stockholders of the Maxim & Gay Co, are willing that the maximum profits of the corporation should be annually 100 per cent on their \$50,000 investment. (They are not hogs.) A little arithmetic will show you that un's these conditions we are still able to spend \$3,800 per day for information.

Think it over. Examine the results we get, as shown in the table of winnings and losings presented below. and ask yourself whether our proposition isn't the greatest thing you ever struck since you joined the human race. We were the turf sensation of 1901 at Sheepshead and Saratoga. We were the turf sensation of 1902 at New Orleans, Brighton and Saratoga. We are already the turf sensation of 1903 at New Orleans.

OUR SYSTEM AND PROSPECTS.

The three-horse wire is the thing. Because of a desire to not very conservatively our one-horse wire has not realized our expectations to date. We intend this week, however, to steer a way from the old policy of conservatism on the one-horse daily selection and to take a couple of chances weekly with long-priced horses that have a good chance to win, and in all probability this week's showing of the one-horse wire will equal, if not excel, that of the three-horse wire. The one-horse wire represents, as you probably already know, the surest probable winner of the day, while the three-horse wire represents the three-horse best bets from the double standpoint of sureness of winning and juiciness of odds. We shall endeavor this week to pick horses for both wires from the double standpoint and look forward to a record of unusual brilliancy in both departments.

Another thing: Track conditions have improved at New Orleans within a day. The "path" has been obliterated by the engineers and it will no

longer be a case of the first horse getting to the path being returned the winner, but the best horse. With an even break we have the game beaten to a standstill, and that's what every horse will get at New Orleans from now on.

OUR CAMPAIGN TO SECURE PROPER ODDS.

Since the Maxim & Gay Co. scored its first sensational success it has been handleapped in obtaining the best results for its clients by the fact that its selections became public property before the races were on. In the East, throughout the year, it has been the experience of every one that once a horse was known to be tipped by Maxim & Gay to win a race, that horse became a mark for the bookmakers in the betting. If the horse we tipped was a natural 5-to-1 shot, bookmakers, to whom the information was just as accessible as it was to anybody else who paid the price, chalked up 2 to 1, more or less, knowing that the play was sure to come. As a result, clients got the worst of it.

We have provided against this at New Orleans. Our information is not on sale before the races are run, and is not even transmitted by telegraph, either in code or otherwise. Even a code would be futile, because there would be nothing to stop any bookmaker, or set of bookmakers, from subscribing for the information, obtaining the code, and having the transcribed message telegraphed them.

To enable betters to place their money on the horses to the very best advantage, the services of Mr. Sol Lichenstein, the noted Eastern bookmaker have been secured by the Maxim & Guy Company. Mr. Lichenstein has a national reputation as a bookmaker, and is far-famed as a "ring general." charges 5 per cent of the weekly profits for handling the money, and he makes upwards of \$10,000 per week sure profit by the transaction. The information in the hands of Mr. Lichenstein, to be used solely for the benefit of our clients, proves of an advantage which can hardly be overestimated. The higher the odds, the larger Mr. Lichenstein's commission is. You will easily be convinced, therefore, that Mr. Lichenstein more than endeavors to use those faction at New Orleans which have made him famous on the Eastern tracks to secure an inflated price against those horses on which he intends to bet for us. Recently Mr. Lichenstein has, for the protection of our clients, been placing the money away from the track, but invariably he is present in the New Orleans betting ring, and never forgets his duty to bull the market on our selections. His factics are his own, and for obvious reasons cannot be

OUR INFORMATION IS EXCLUSIVE.

Nothing is communicated over the wires before the races to our subscribers. As a symbol of good faith, however, the day's selections are placed in a seciled envelope, addressed to each subscriber, and put in the mail in the New Orleans general Post Office at 1 p. m. daily. We guarantee that no horse will be played for any client except the name of that horse has been mailed to him in an envelope bearing the New Orleans postmark not later than 2 p. m. of the day the races are run. After the races are run. New Orleans clients can learn at our New Orleans office the names of the horses Mr. Lichenstein has been instructed to play. New York clients can learn at our New York office, and out-of-town clients will receive the news by telegraph. f they so order all telegrams at cost of subscriber. In addition, we under take to place in the hands of the editor of the New Orleans Item, before races, the selections the money will be played on, and also to advertise next morning the names of the horses in the New York Daily America, which is the recognized racing authority of the country.

For the security of persons to whom our fame and financial standing are unknown, and who wish to follow us at New Orleans, the Maxim & Gay Co, refers to the State National Bank of New Orleans and turf men generally.

TERMS AND CONDITIONS.

The fee for our One-Horse Wire and for our Three-Horse Wire is \$10 weekly for each. Mr. Sol. Liebenstein's charges for placing your money at the track are 5 per cent of the net weekly winnings. Statements are mailed you weekly, with check for profits. Accounts accepted subject to withdrawal by you on telegraphic notice to that effect. Official closing odds, as published in New York Daily America, the recognized racing authority of the East,

The following are the minimum sums that are accepted for betting: For a \$50 daily play on each horse 250 For a \$100 daily play on each horse 500 For a \$30 daily play on each horse For larger sums, in proportion. Remit direct to the Maxim & Gay Co., 928 Canal street, New Orleans. In ordering us to bet for you, be sure to say explicitly whether you want

us to play the one-horse wire for you daily or the three-horse wire, and what sums you wish played daily. All accounts received by the Maxim & Gay Co. will be played by Mr. Sol. Liehen stein or some other agent of the Maxim & Gay Co., and the Maxim & Gay Co. will make all accountings direct to its clients. The Maxim & Gay Co. assumes all responsibility for a proper execution of its clients' orders.

Our friends are cautioned against sending money through the mails without registering. No checks accepted unless certified.
